EDUCATION

2020 - 2025

B.Sc. in Information Science

Specialization: Software Engineering &
Information Systems (240 ECTS)

Faculty of Computer Science and
Engineering, Skopje

TECHNICAL FOCUS

Backend

Python, Django, FastAPI, Spring Boot,
REST, PostgreSQL, MySQL, SQLite,
Elasticsearch

Data & ML

Pandas, NumPy, Scikit-learn, TensorFlow,
PyTorch, PowerBI, DuckDB, Jupyter

Frontend

TypeScript, JavaScript, React, Next.js,
Vue.js, Angular, Bootstrap, Tailwind CSS

DevOps

Docker, Compose, Caddy, Linux, GitHub
Actions, Selenium, ffmpeg, MCP

CERTIFICATES

- Python for Big Data Processing
- Deep Learning with TensorFlow and PyTorch
- High-Performance Computing in Distributed Systems (MPI)
- Introduction to High-Performance Big Data Processing
- HPC in Assistive Technologies
- Map/Reduce (Hadoop, Spark, Flink)

LANGUAGES

English: Fluent
German: Intermediate

Branislav Taskovikj

B.Sc. in Information Science, Software Engineering & Information Systems

Full-stack software engineer with a B.Sc. foundation in Information Science, Software Engineering & Information Systems and hands-on experience in Django, FastAPI, Spring Boot, PostgreSQL, Docker, Elasticsearch and TypeScript/Next.js. Builds practical backend systems, data workflows, automation tools and production websites with a focus

PROFESSIONAL EXPERIENCE

- **Nov 2023 - Present** **Freelance Software Engineer**
Self-employed
 - Build custom web applications, automation dashboards and data products using Python, Django/FastAPI, Docker, SQL databases and modern TypeScript frontends.
 - Recent work includes vehicle data platforms, motorcycle marketplace features, Facebook content automation and open-source deployment tooling.
- **Jul 2023 - Oct 2023** **Software Engineer Intern**
Marketing Platform by LINK Mobility | Kumanovo, North Macedonia
 - Contributed to backend service development with Django, PostgreSQL and Elasticsearch; implemented automated tests and supported clean architecture practices.

PROJECTS

Dockio

dockio.dev | Open source, 2026 | Next.js, TypeScript, Docker/Linux

Open-source self-hosted VPS deployment panel for Git, Docker image and Compose deployments, including GitHub App repository deploys, Caddy routing, managed databases, logs and health checks.

AutoTyp.ch

Vehicle data platform, 2026 | ASTRA open data

Vehicle type approval and Typenschein lookup for Switzerland, built around 220,000+ ASTRA records, technical vehicle specs, multilingual explanations and canton-level tax-estimate workflows.

Swiss Open Data MCP

Open source, 2026 | Python, MCP, DuckDB, Pandas

Local MCP server for Swiss open-data discovery, DuckDB analytics, table profiling, chart/report generation, citation packs and agent-ready dataset workflows.

Facebook Content Automation Dashboard

2026 | FastAPI, SQLite, APScheduler, OpenAI, Meta Graph API, ffmpeg

Local-first dashboard for page profiles, topic queues, script/TTS generation, transcription, video rendering, scheduling, retryable Meta publishing queues, health checks and logs.

EnviroHealth / Public Health Data Analysis

Data science | Python, Pandas, Jupyter, GDELT, WHO, OECD

Data science project analysing links between environmental degradation and public-health outcomes using global datasets, notebook workflows and visual exploration.

Motomak.ch

Production web app | Next.js, Sanity CMS, TypeScript, SEO

Swiss motorcycle rental and sales platform with dynamic listings, filters, inquiry forms with photo uploads, email notifications, structured metadata and production SEO.
